RFPT

French Journal of Photogrammetry and Remote Sensing
Open-access scientific journal
Photogrammetry • Remote Sensing • Computer Vision • Cartography

Presentation
RFPT is a scientific journal dedicated to the fields of photogrammetry, remote sensing, geospatial information systems, and computer vision. Founded in 1959 by the ***French Society for Photogrammetry and Remote Sensing*** (SFPT), the journal publishes scientific and technical contributions intended for both the academic and professional communities.

Topics
The journal covers scientific themes within the same scope as its international counterpart, the ***ISPRS Journal of Photogrammetry and Remote Sensing***, including: sensors and acquisition systems, theoretical and algorithmic developments, data processing and analysis, cartography and 3D modeling.
